Ultimate 2200 Deicer

The Global Ultimate 2200 series of aircraft deicers are modular in design, which provides the exact deicing capability your aircraft operation needs. Our flexible design allows each deicer model to be upgraded with additional systems as your requirements or current technology changes.

How We Can Help

Additional System Configuration Options available with the Ultimate Aircraft Deicer are:

- Enclosed Basket Option
- AirPlus!® Option
- Premium Blend Option
- Single Operator Option
- XR Option

To learn more about this aircraft deicer model and why Global Ground Support is right for you, be sure to contact our team by calling (913) 780-0300.

W WEIGHT	35,000 lbs
-----------------	-------------------

Technology

Air Plus!

Premium Blend

MIDAS Telemetry

3-Barrel Nozzle

Specifications

OVERALL DIMENSION

HEIGHT – STOWED

12.8' (3.9 m)

LENGTH – STOWED

38.2' (11.58 m)

TURNING RADIUS

33.4' (10.16 m)

WIDTH

8.4' (2.54 m)

AERIAL DEVICE

WORKING HEIGHT

47' (14.33 m)

HORIZONTAL REACH

40.9' (12.43 m)

ROTATION

370° Non-Continuous

Additional Features

Pumping System:

Flow Rates

Deicing 60 gpm (227.1 lpm)

Anti-icing 20gpm (75.7 lpm)

Pressure

Deicing 150 psi (10.3 bar)

Anti-icing 50 psi (3.4 bar)

Fluid Tank Capacity

Deicing 1900 gal (7192 L)

Anti-icing 300 gal (1135 L)

Total Fluid Tank Capacity 2200 gal (8316 L)
